

My name is Tim Burton. I am running for the office of Anastasia Mosquito Control District (seat 1).

I am a business professional with over twenty-two years of building and managing a profitable operation. I bought my first company in 2000 in Ponte Vedra Beach and sold it in 2003. I am currently running our family business Esquire Cleaners. We are located off of CR 210 West in St. Johns County and have been there since 2005. My focus has been on business development and improving efficiency of operation. I have strong financial and budgeting skills.

My goals for the office is to maintain the level of conservative values and financial responsible. Helping run an efficient Mosquito Control District, to ensure lower tax rates. I would continue to direct the company in natural and safer ways to battle the Mosquitos in St Johns County. This would ensure healthier community for humans and wildlife.

My vision for the county is to help control the mosquito population so AMCD can continue to be the model for United States and around the globe.

My education started in Jacksonville at Bishop Kenny High School. I finished with a BS degree in Finance and minor in Accounting at Florida State University.
